Dear Ms. Turpin:

In response to your email from yesterday, please be aware that asking a question in the legislature is not as easy as it looks.

In order for your community to have the opportunity to receive a new school, you and your school board will have to be very diplomatic from here on out. I continue to advocate on your behalf and will be in communications with Hon. Lukazuk and Hon. Johnson to ensure Grimshaw Holy Family School will continue to be a priority.

I advise you to be cautious as to how you approach future communications as your comments could be upsetting to some individuals. This could delay the decision on a new school.

The government is not ready to announce budget plans for school infrastructure at this time, but please be aware that I continue to advocate on your behalf.

Sincerely,

Hector Goudreau
